LET'S TALK...

CONNECT-4-SUCCESS

Our program officially kicks off on January 4th with students arriving at 6 companies. There have been many months of meetings with the Ritenour School District and companies that express an interest in the program. We thank all the companies that allowed us to present the program to them and while they may not be part of the initial group, hopefully they will participate in the future. Shortly, we plan to expand the number of companies participating for the fall semester. We will be looking for companies in mid-town and the Westport area. Non-EBMI companies will be invited to participate. But that is down the road.

On December 15th, we start the process of connecting companies with students by conducting interviews to select a student for the job positions available. In talking with Ritenour School District officials, the students are very excited about this opportunity. We have asked the company mentors to make this a learning experience for each student. The following companies will participate in this first semester...

- Alkem Labs
- Butler Supply
- EBMI
- Graybar
- Holt Electrical Supplies
- Ross & Baruzzini

So long to 2017....

The first part of the year our focus was on the Electrical Expo and providing opportunities to connect attendees with our exhibitor personnel. We were very pleased to sell all the available booth spaces at the St. Charles Convention Center. We added a mobile app for the show and wi-fi throughout the convention center. Seminars were once again very well attended.

The second half of the year we had a number of events, golf outings, Christmas Mixer, Illinois Emerging Energy Topics, Electrical Safety Workshop as well as our classes and seminars. The 21st Century committee is re-vitalized with the Escape Room as the first of many events for the young professionals in the industry.

Overall, 2017 was a good year for the EBMI and hopefully continues into 2018.

IN MEMORIAM

The Electrical Board officers and staff express our sincere condolences to Matt Gagnepain of Metro Electric Supply whose father Charlie passed away on November 28th. Charlie is also the uncle of Bill Frisella of Metro Electric Supply; and to Lyndy Kuhlman of St. Louis Lighting Group whose father Bill Raines, retired Electrical Inspector for St. Louis County and EBMI member passed away on December 2nd.

CALENDAR OF EVENTS

See calendar on www.electricalboard.org

DEC. 25th	MERRY CHRISTMAS
Dec 25th & 26th	EBMI Office Closed
<i>HAPPY NEW YEAR!!</i>	
Jan. 1st	EBMI Office Closed
Jan. 18th	Dart Tournament At Hotshots in Fenton 5:30 pm Sponsored by 21st Century Committee Detail in back page
Jan. 25th	Energy Efficiency Workshop 7:30 am to 12:00 noon At Ameren headquarters
March 22	Bowling Night At Brunswick Lanes (Big Bend and Dougherty Ferry) You can also stop by and watch the NCAA Tournament with us. Sponsored by the 21st Century Committee.
April 10th	SPRING LEADERSHIP LUNCHEON At Doubletree Hotel near Westport
May 17th	EBMI Night at the Cards Game All-inclusive tickets in Coca-Cola Scoreboard Patio costs \$75 per person. Call EBMI office to order your tickets. Moer details included in this newsletter.
June 4th	SPORTSMAN'S HOLIDAY at Forest Park
Call EBMI at 636-305-6434 for more information or to register for any of these events or visit our website at www.electricalboard.org .

*May you have the gladness of
Christmas, which is HOPE;*

The Spirit of Christmas, which is PEACE;

*And the Heart of Christmas, which is
LOVE.*

Over 600 people attended this year's Mixer which was an increase in attendance over last year. Through the generous donations of the companies listed, we handed out 98 attendance prizes.

The donations by our members and guests to the **Salvation Army** totaled **\$2,017.38**. Yes, every penny helps. This was also an increase in the total collected last year.

TWO HANDS – TWO CANS

Our members and guests donated **2,393** cans to the FEED MY PEEPS organization, of which 1,700 cans was donated by Holt Electrical Supplies. Last year, 546 cans were donated.

We thank everyone who donated and we have received emails from representatives of both organizations thanking you for the donations.

POSITIONS WANTED

10A17 – MARKETING SPECIALIST - Highly motivated individual with a recent Communication degree and numerous marketing, sales, and event planning experiences. Writes engaging and effective web marketing content, while also maintaining exceptional interpersonal skills. Available to start immediately. Contact EBMI for resume.

12A17 –INSIDE TECHNICAL SALES SUPPORT - I have my Airframe and Powerplant certificate issued by the FAA. Also I an Aircraft Electronics Technician certification issued by NCATT National Center for Aerospace Transportation Technologies. My goal is to work my way to engineering service support position. I can also do maintenance, assembly, repair, overhaul or field service work. Contact EBMI for the resume.

POSITIONS AVAILABLE

10117 - FIELD TECH / UNDERGROUND UTILITIES CREW MEMBER

Responsibilities include, but are not limited to:

- Hand dig splice pits of 4x4x4 average size using hand tools, e.g. flat shovel, etc.
- Use mini excavator or trenching machine, as needed
- Work in residential and commercial areas
- Take photos of locate marks, open pit, restored area, etc.
- Backfill, seed and straw
- Properly perform lane closures with flaggers, etc.
- Be compliant with safety procedures
- Work at a variety of site locations in close clustered areas on a daily basis

Basic Qualifications:

- Work outdoors in all climates
- Valid driver's license or ID card and CDL optional
- Ability to pass background check and drug screening
- Ability to perform physical movements such as bending, shoveling, pushing and pulling reels of wire
- Ability to do landscape restoration
- Ability to lift approximately 50 lbs.
- Ability to work up to 6 days a week
- Ability to repair sprinklers (not a requirement, but a positive skill)
- Ability to communicate to Wilkins dispatch frequently and end customer subscriber, as needed
- Ability to complete close out form to submit for work completion on each job
- Ability to receive and close out jobs on smart phone, when applicable

Interested applicants should email their resumes to The Wilkins Group, Inc. at careers@wilkins.com.

Mark your calendar NOW for...

SPRING LEADERSHIP LUNCHEON

TUESDAY – APRIL 10TH

At Doubletree Hotel near Westport
1973 Craigshire Dr. – 63146

Tables of 8, 9 or 10
Cost: \$50 per person

“Value Driven Business – Authentic Leadership”
Speaker: Jeff Koziatek
Core Authenticity

Make your plans to attend.
More details to follow in future FLASH issues

JANUARY 15TH DEADLINE **TO SUBMIT SCHOLARSHIP APPLICATIONS IS** **FAST APPROACHING!!!**

If you already received the scholarship application, you may want to send a reminder to your son/daughter to complete application before deadline.

Most school offices are closed for the upcoming holidays. If you need transcripts to complete an application, please do so before these holiday breaks.

Do you have a son or daughter who is a senior in high school this year or now in college? Why not have them apply for an EBMI Scholarship!

Please e-mail annie@electricalboard.org as soon as possible to request the application and criteria on the EBMI scholarships. She will e-mail information to you so you can forward to your son or daughter. Individuals must be an EBMI member for one year to apply for a scholarship for their sons or daughters.

EBMI has awarded 156 scholarships totaling \$136,900

We will recognize the scholarship recipients at the April 10th Leadership Luncheon

Special THANKS to EBMI Foundation Donors for 2017-18

Donations received from organizations, member companies and individuals. We appreciate their contributions to the EBMI Scholarship Foundation. The names in bold were added since the last FLASH.

EBMI NIGHT AT THE CARDINALS GAME

CARDINALS VS. PHILLIES
THURSDAY, MAY 17, 2018
6:15 P.M.

(already have 127 tickets reserved)

Coca Cola Scoreboard Patio

\$ 75 per ticket

- MUST ORDER BY DECEMBER 21st

Which includes:

- An all-you-can-eat picnic buffet that includes hotdogs, BBQ beef, baked Italian chicken, nachos & cheese, mixed greens salad, cookies and brownies
- Bud and Bud Light on tap
- Coca-Cola products and O'Doul's (available throughout the game)
- Reserved seats
- Buffet service begins when Busch Stadium gates open (1½ hours before scheduled game time on Mon-Thurs) and will be available until 1½ hours after scheduled game time.
- Bar service begins when Busch Stadium gates open. Alcoholic drinks will remain available until 2½ hours after scheduled game time. Non-alcoholic drinks available to end of game.

All-Inclusive Rain Delay Policy: In the event of a rain delay, alcohol service will end 2½ hours after scheduled game time.

The nice part about these seats is that you can get up freely, as long as you don't block the view of the game for others. Last year, many of the EBMI members stayed in the back to visit with one another, while others stayed in their seats the entire game – it's your choice! But, you are not confined to your seats throughout the game. Plus you have a table ledge for food and drink. This area is in centerfield, which gives you a great view of the game.

Order your tickets today by phone 636-305-6434 or email bill@electricalboard.org

We only order tickets that have been reserved by our members, and all tickets must be paid within two weeks. No extra tickets will be ordered by EBMI so please let us know if you want to participate!! **We have to call the group ticket department by December 22nd to place our final order. After that date, the ticket prices could go up due to the Cards use of dynamic pricing.**

LAST YEAR, WE HAD 194 SET TO ATTEND OUR EBMI NIGHT BEFORE THE RAINOUT!!!

Legislation Reflects Consumers' Call for Rate Caps, Modernizing Missouri's Energy Grid

From Ameren Missouri's PowerForward

JEFFERSON CITY, MO – On December 1, State Sen. Ed Emery (R-31, Lamar) pre-filed energy legislation for the upcoming 2018 Missouri legislative session. The bill proposes limiting the average annual electric rate increase at 3%. The legislation is, in part, a response to calls from consumer groups, including the Missouri Retailers Association, Missouri Grocers Association and the Missouri Chamber of Commerce and Industry. This legislation supports bending the cost curve downward for electricity, which saves consumers money on their energy bills. And, at the same time it unlocks more than \$1 billion in grid improvements, attracting business to the state and creating jobs.

Sen. Emery and Rep. T.J. Berry (R-38, Kearney), who will file similar legislation in the House, said they have been working with various stakeholders this year to come up with a potential compromise to reform Missouri's 100-year-old energy regulations. The lawmakers believe there is a growing consensus that the status quo is hurting Missouri's economy and slowing the modernization our state's energy grid.

Also today, the Missouri Chamber of Commerce released its 2018 legislative agenda which was unanimously approved by its Board of Directors, including support for energy reform.

“The Missouri Chamber appreciates this movement towards compromise in solving Missouri's energy challenges,” said Dan Mehan, Missouri Chamber of Commerce CEO. “The Chamber recognizes the advantage of affordable and reliable energy in retaining and attracting businesses to our state. The Missouri Chamber will support efforts and work with business leaders, utility providers, and community leaders to drive a collaborative long-term solution to address Missouri's aging infrastructure while ensuring continued reliable energy at predictable and competitive rates for customers.”

“When it comes to Missouri energy policy, the status quo just isn't working for Missouri families and businesses for two primary reasons,” said Sen. Emery. “Energy prices are going up faster in Missouri than most states, while at the same time we aren't making significant enough progress in modernizing our grid. This legislation aims to make future energy costs more stable and predictable and supports a modern, smart and secure energy grid to better serve Missourians.

“There is a great need to pass legislation this year, said Rep. T.J. Berry. Low-energy prices have traditionally been an

economic advantage in Missouri. Yet inaction by Missouri lawmakers has caused this advantage to slowly disappear. Action now means we keep our low-cost energy advantage which benefits our constituents and Missouri businesses. This legislation supports consumers' call for stable and predictable prices, unlocks additional grid improvements, and keeps or enhances current regulatory oversight of utilities.”

To bend the cost curve downward for Missourians, the legislation calls for rate caps on electric energy costs in the range of 3%. These caps if passed into law would be enforced by the Missouri Public Service Commission (PSC) and may represent some of the most consumer-friendly utility rate caps in the country. If regulators approve a rate increase for an investor-owned electric utility above the 3% threshold, the utility would be subject to a significant penalty and potential loss of these new regulatory ratemaking tools.

For example, if a utility filed a regulatory rate review in consecutive years, energy rates would be limited to the 3% cap. If there are two years between rate review filings, rate increases would be limited to no more than approximately 6% (3% per year for two years). Today there are no rate caps limiting increases. Also, the legislation keeps the PSC's authority and the utilities' burden of proof before the commission unchanged.

We're pleased that Senator Emery is continuing to work with all parties, including consumer groups, toward a solution, said Warren Wood, vice president, External Affairs and Communications, Ameren Missouri. Ameren Missouri has been saying for quite some time that we need to make Missouri's energy grid smarter and more secure in a way that's good for customers. We're optimistic that progress may finally be made, and if we can make a form of rate cap legislation work, we will.

We will keep you informed about this important bill as it moves through the legislative process. The 2018 Missouri Legislative Session begins at noon on Wednesday, Jan. 3.

EBMI MEMBERS PLANNING TO RETIRE can still maintain EBMI membership

Members who plan to retire and want to maintain membership in the EBMI as a retired member, should contact the office **before you retire**. Companies cannot provide us your contact information after you retire.

There is no cost for retired members who allow us to email you the FLASH newsletter. If FLASH is mailed, the fee is \$15 per year.

Big power with flexibility. Paralleled 600kW generators find a home on the rooftop.

6 THINGS A GENERAC MODULAR POWER SYSTEM (MPS) CAN DO FOR YOU

DISCOVER THE POWER OF PARALLELING WITH GENERAC INDUSTRIAL POWER AND CLIFFORD POWER SYSTEMS

Generator paralleling is widely considered one of the best practices for backup power installations, with redundancy, scalability and cost savings working in your favor. One of the first to design and implement integrated paralleling, Generac has long paced the industry with state-of-the-art paralleling solutions. Meanwhile, Clifford Power is your go-to power provider with 24/7/365 service availability and knowledgeable support.

Paralleled MPS solutions offer many advantages:

- ▶ **Integration:** The switchgear is built directly into the gensets themselves, which means you don't need expensive third party equipment.
- ▶ **Reliability:** Protect your most valuable assets — from critical data to life-saving equipment — with N+1, N+2 or greater redundancy and up to 99.999% reliability.
- ▶ **Flexibility:** A paralleled system is often easier to place than a single bulky genset. Optimize your space with generators located on rooftops, parking lots and garages.
- ▶ **Scalability:** Gensets can easily be added to accommodate the growth of your business. Owners enjoy a smaller initial investment, with the ability to add as needed.
- ▶ **Cost Savings:** Compared to large single engines, smaller diesel engines are manufactured in greater quantities and are readily available at reduced costs.
- ▶ **Serviceability:** A single unit can be taken out of service for maintenance or repair while other units stand ready in the event of an outage.

Begin specifying your Generac MPS solution. Call Clifford Power Systems at 1-800-324-0066 to get started.

Reliability for critical loads. Two paralleled 300kW natural gas generators provide redundancy.

Made to grow. A 5 x 600kW bi-fuel MPS setup leaves room for one more.

CLIFFORDPOWER.COM | 1-800-324-0066

THE POWER OF DEPENDABILITY[®]

GENERATOR SALES, SERVICE, RENTAL AND PARTS

BUSINESS | INSTITUTIONAL | RESIDENTIAL

Clifford Power is your one-stop shop for standby and mobile power generation. From equipment to planned maintenance and repair to rental and parts, our sole focus is assuring you have continuous power when and where you need it.

CUSTOM EQUIPMENT SYSTEMS

Clifford Power professionals provide you with expert guidance in equipment options, installation, lifecycle maintenance and building codes to define a power generation solution based on your specific needs.

We are an authorized Generac Industrial Power distributor, offering the widest range of power products in the marketplace. This includes industrial, commercial and residential generators, as well as transfer switches and accessories.

SERVICE

Clifford Power provides both planned maintenance and repairs to extend the lifecycle of your power system. We also provide fuel testing and maintenance, as well as load banking services.

THE CLIFFORD POWER ADVANTAGE

Local

Clifford Power employees are members of your community. We have a personal investment in your total satisfaction. Because we are your neighbors, we can respond quickly when you need us.

Available 24/7/365

When you need power, you need it immediately. Clifford Power is local and available for you every minute of every day.
