

When it began...

Since 1909, the Electrical Board has been a unifying force for the various segments of our industry. **We are guided by our members ... for our members.** If you are in the electrical industry, we hope you will consider joining us **TODAY**.

Mission Statement

The Mission of the Electrical Board of Missouri and Illinois is to provide programs and services that educate, communicate and connect our members, the community and our evolving industry.

Education and training

In an ever-changing industry, knowledge is power.

- Our **classes and seminars** are designed to give solid fundamentals and expand your industry related knowledge.
- Substantial discounts available to EBMI corporate members and their employees.
- The **Consulting Engineers Forum** offers **design professionals** an opportunity to hear information relating to their specific issues and receive pdhs. The quarterly forum is included as an additional benefit while non-member engineering firms pay a fee to attend.
- We offer **Professional Development Hours (pdh)** for license renewal for engineers.
- Also offer education hours in several classes that fulfill licensing requirements for Jefferson County and City of St. Louis (every 3 years). Both require 8 education hours for licensing and renewals.

Scholarships

- Each year, scholarships are awarded to the immediate family of our members provided they meet the certain criteria.
- Beginning in 2022, we began awarding at least 5 - \$1500 scholarships. The number of scholarships available is determined by the amount of donations raised during the year.
- **YOU** must be a **paid EBMI member for one year** to receive an entry form.
- A committee selects the award winners.

Staying connected

- **FLASH**, our monthly newsletter, keeps members current on the upcoming programs, educational opportunities and industry news. Member Companies are able to purchase ad space in the newsletter including placing flyers as an insert into the FLASH.
- ***Personnel Service** within the FLASH allows companies to advertise employment opportunities at no charge and also place on our website under job listings. **ONLY** member companies can place ads.
- EBMI provides a link to all our member company's websites.
<http://www.electricalboard.org/member-companies-2/>
- The website also provides contacts at participating area universities for those needing interns.

Industry interaction

One of our goals is to serve as a catalyst in getting the various segments of our industry together. Members receive discounted rates on various events.

- We offer regular programs on business, industry or civic issues that are of interest to our members. These provide education, industry information and networking opportunities all in one event.
- We co-sponsor annual seminars that provide information on energy efficiency, clean energy, electric power issues and other pertinent industry topics. They are held in fall and spring in both Missouri and Illinois.
- Many of our members attend the programs to stay abreast of the happenings within our industry. Meeting and talking with other members can provide the best source of what's happening in our industry.

Partnerships

- We are one of many **associations** in the construction industry and try to maintain our relationships through interaction with these other groups.
- Our members serve on the advisory boards for several of the area **Technical Schools** to help them provide our employees of the future.
- We also offer a number of business services through **Federated Insurance and Electro Savings Credit Union**. Their services could benefit your company and employees.

Electrical Expo

- Our Electrical Expo is the region's largest. We attract manufacturers from across the country to display their products. Member companies receive discounted booth rates.
- The Expo is held every three years at St. Charles Convention Center. **Our most recent Expo – August 23-24, 2023.**
- Attendees can see many of the products used in the electrical construction industry all in one place.
- We also offer a variety of seminars to enhance your learning experience and offer pdhs/lus. Over 1,700+ have attended our Expo seminars.

Division of The Electrical Board

Call for application or visit www.electricalboard.org for more information.

- **Women's Electrical Board (WEB)** provides monthly evening programs on a variety of topics to the women in our industry. This group allows an interaction between colleagues, customers and competitors which helps foster the important role women have in our member companies.

The Power of ONE organization.
